

Payzone offers retailers the new Lycamobile service

Payzone, the leading European consumer payments and cash distribution network, is pleased to announce that its retailers can now offer top-ups for Lycamobile, the fastest growing Pay As You Go SIM card in Europe, on their terminals.

Lycamobile enables customers to make high quality, low cost international calls directly from their mobile without entering access codes or PIN numbers. Retailers will be able to offer the top-up in denominations ranging from £5 to £50. The service is available immediately and is supported by a £10 million advertising and campaign featuring 'Globeman', a culturally aware icon representing Call the world for less.

Lycamobile is on track to acquire one million subscribers within 12 months in the UK and is the third MVNO added by Payzone in recent weeks, offering retailers more opportunity to capitalise on the fast growing international calling market.

Paul Charmatz, Managing Director of Payzone said "The international calling market continues to grow and our unique demographic makes us the fastest growing provider in this ethnic-centred space. Payzone is working to collate the most popular MVNOs for its retailers so they can participate in a very profitable market."

Milind Kangle, CEO, Lycamobile said "We are delighted to work with Payzone and with their network of more than 30,000 retailers, Lycamobile customers will have even greater access to convenient places where they can top-up their credit."

Lycamobile international calls cost from as little as 3p per minute, with national calls from 8p per minute. With introductory deals including 0p per minute Lycamobile to Lycamobile UK calls* and additional credit on top-ups, the Lycamobile Pay As You Go SIM gives UK consumers the ability to make both international and national calls of the highest quality at the lowest rates ever.
